

# Endocrine Gland Poster Project

Your group is a company that specializes in research on a particular endocrine gland. Your job is to create a billboard that tells the general public information about your endocrine gland. At the end of the project, you will have to give a presentation to try to convince the investors (the rest of class) to invest money in your company. Each person will have a \$1000 to invest as they see fit.

- Each group will be assigned a specific endocrine gland to research. **The non-bolded parts of the assignment rubric will be written on a separate sheet of paper with your gland name as the title.**
- At the conclusion of the research, you will produce a billboard (large white sheet of paper). The billboard will be provided to ensure the equality of size. **The bolded parts of the rubric will be on the billboard and discussed with the class.**
