

Science Literacy Current Events

Instructions: Find a current event article relating to a Biology topic (cells, the body, medicine, the environment, ect) and read the article. Write a meaningful summary paragraph (minimum of 6 sentences) and ONE additional paragraph that addresses the following five questions:

- 1. What I found most interesting about the article**
- 2. What I learned about the article**
- 3. Am I for or against this...why?**
- 4. How the article affects me or others in everyday life**
- 5. How it relates to what we are learning/have learned in class**

Bibliography – include FULL web address (not just sciencedaily.com), title of the article, and author/university

	Points Possible	Points Earned
Summary	50	
Most Interesting	10	
Learned	10	
Are you for or against it and why?	10	
How could this affect a person’s everyday life?	5	
How does it relate to our class content?	5	
Bibliography	10	
Final Grade	100	

Your article summary must be typed or neatly written. If typed, you will submit the article to Schoology under the Article Folder.
