Energy		Ability to do work and the picture shows energy in a battery that allows work to occur
--------	---	--

Section 1

Energy
ATP
Food web
Food chain
Producers
Consumers
Primary consumers
Secondary consumers
Tertiary consumers
Scavengers
Decomposers
Energy pyramid
Trophic level

Section 2

Reactant
Product
Exothermic
Endothermic
Activation Energy
Enzyme
Substrate
Active site
Lock and Key mechanism
Denature

Section 3

Endosymbiotic theory
Photosynthesis
Cell respiration
Chlorophyll
ATP Synthase
